About Me

Result-oriented Engineering Manager and Automotive Operations Expert with extensive experience leading cross-functional teams and delivering complex product programs for premium OEMs. Highly structured, disciplined, and quality-focused, with a proven track record in operational excellence, process improvement, and technical leadership. Thrive in high-pressure environments through strategic prioritization, clear decision-making and effective problem-solving. Committed to developing high-performing engineering talent and driving sustainable organizational growth.

Education

PhD Candidate Transport, Aviation, and Navigation

Technical University Sofia
(2021 - 2027)

Dissertation Topic: Development of a System for Estimating the Predictive Friction Coefficient Ahead of the Vehicle.

MEng Internal Combustion Engines and Automotive Engineering

Technical University Sofia
Distinction (2018)

BEng Transport Technology and Management

Technical University Sofia
(2011)

Leadership & Professional Experience

BOSCH Engineering Center Sofia

Position: Engineering Manager | Group Leader

Strategic Leadership & Engineering Management

June 2023 – August 2026

Strategic Leadership: Led three engineering teams comprising approximately 50 engineers across cutting-edge automotive domains, including System Engineering, Software Development, Cybersecurity, and Model-in-the-Loop (MiL) Development and Evaluation.

Talent Development & Mentorship: Managed end-to-end employee development, including performance management, mentoring, career growth, and capability building for engineering talent. Delivered lectures at the Bosch ECS Career Camp, supporting the upskilling of next-generation automotive engineering professionals.

Technical Talent Acquisition: Served as the Lead Technical Examiner for engineering interviews, defining technical competency standards and supporting the recruitment of high-calibre engineering talent.

Position: Technical Team Leader

Cross-Functional Team Leadership

March 2020 – June 2023

Cross-Functional Management: Managed and coordinated three technical teams across Systems Engineering, Cybersecurity, and Simulation-Based Testing to deliver complex validation milestones.

Process Alignment: Aligned virtual simulation environments with physical systems validation activities, improving test-cycle efficiency and strengthening end-to-end validation coverage.

Team Scaling Initiatives: Contributed to corporate growth programs, including the Bosch ECS Career Camp, mentoring junior and senior specialists and preparing internal talent for more advanced technical and leadership roles.

Visteon Corporation

Position: Validation Project Leader

Project Delivery & Process Excellence

March 2019 – March 2020

Project & Team Leadership: Led a high-performing team of test engineers for a prominent Daimler AG Instrument Cluster project on the MRA2 platform.

Certifications

ISTQB Certified Tester – Advanced Level, Test Manager | SEETB (Dec 2017)

Driver Authorization for Test Vehicles | RAISCH Group (May 2017)

ISTQB Certified Tester – Agile Tester Extension | SEETB (Nov 2016)

ISTQB Certified Tester – Foundation Level | SEETB (Apr 2016)

Languages

Bulgarian: Native

English: Professional Working Proficiency

Driving Licenses

Categories: A, B, C, D, E

Special Authorizations: Prototypical & Non-Homologated Vehicle Testing (Early Development Phase – FB-E)

Cross-Functional Coordination: Coordinated validation activities across global project teams, suppliers, and stakeholders to ensure seamless integration within the vehicle architecture.

Process Compliance (ASPICE): Developed and optimized validation processes in line with stringent Automotive SPICE standards and industry best practices.

Resource & Infrastructure Management: Planned and executed complex validation sessions on HiL benches, as well as local and customer-site in-vehicle testing.

Talent Growth: Implemented structured career development frameworks to elevate team competencies, technical expertise, and long-term talent growth.

Position: Automation Test Engineer

Technical Expertise & Engineering Leadership

January 2016 – March 2019

Acting Team Leadership: Served as Acting Team Leader for 1.5 years, balancing technical delivery with team coordination, mentorship, and task prioritization.

Automated Testing & Strategy: Designed, implemented, and executed automated test cases using Black Box techniques for functional and robustness validation.

Domain & Platform Experience: Validated Instrument Cluster, Multimedia, Connectivity, and Phone functionalities for Mercedes-Benz Group AG across MFA2 and MRA2 vehicle platforms.

Quality & Process Improvement: Authored and drove the robustness test strategy, conducted technical reviews, and contributed to continuous process optimization across validation activities.

INFINITI Bulgaria

Position: Service Advisor & Workshop Manager

Operations & Workshop Management

April 2013 – December 2015

Operational Leadership: Directed daily workshop operations, including resource scheduling, workflow coordination, and service-process optimization for an authorized Infiniti and Nissan service center.

Process & Quality Control: Ensured compliance with corporate standards, safety regulations, and equipment-utilization policies across all workshop activities.

Departmental Oversight: Managed the repairs department, maintaining high-quality service delivery, operational efficiency, and strong customer satisfaction.

NetInfo

Position: Grand-Prix Editor & F1 Project Leader

Media Project Leadership & Automotive Expertise

December 2008 – April 2013

Automotive Industry Jury: Served as an official jury member for the prestigious "Car of the Year" competition, evaluating automotive innovations, market trends, and vehicle performance.

Project & Content Management: Developed, launched, and managed a dedicated Formula 1 digital section across major national media platforms, including SPORTNI.bg and VESTI.bg.

Industry Insights: Authored high-impact automotive and motorsport articles, covering major Formula 1 events, industry developments, and global achievements in the automotive sector.
